

Jeff,

These are the data items that link PPL_MASTERS to Platform_structures and boreholes (for subsea wells)

PPL_MASTERS.DEST_SN_BOREHOLE_FK
PPL_MASTERS.ORIG_SN_BOREHOLE_FK

PPL_MASTERS.DEST_COMPLEX_ID_NUM
PPL_MASTERS.DEST_STRUCTURE_NUMBER

PPL_MASTERS.ORIG_COMPLEX_ID_NUM
PPL_MASTERS.ORIG_STRUCTURE_NUMBER

The problem is that only about a third of the segments have the data populated.

STATUS_COD E	links	segments
ABN	LINKED	768
ABN	NOT LINKED	3468
ACT	LINKED	2966
ACT	NOT LINKED	1738
OUT	LINKED	584
OUT	NOT LINKED	1235
PABN	LINKED	300
PABN	NOT LINKED	519
PROP	LINKED	215
PROP	NOT LINKED	380

Subject: RE: OCS Pipeline connectivity issues (segment links underpopulated)

Chris/Manny: I apologize that I've not cc'd everyone on the latest "quick look" that I got from Warren (highlighting that only 1/3 of the segments have their link populated. I'll call you Manny to ask if you could provide the name of a specific geophysical survey company that we could point Rob toward. Thanks- Jeff
