For purposes of this Deed (these "**Conveyances**"), the Lands, Wells, Leases, Contracts, and all other items of or estates in property, whether real, personal, or mixed, which are identified in the following numbered sections (1) through (8), are collectively referred to herein as the "**Properties**":

(1) All of the real property in which Grantor owns any interest situated in the counties of Calhoun, Galveston, Kleberg, Matagorda, and Nueces, Texas (the "**Counties**"), including, but not limited to, those described on the attached **Exhibit "A"** regardless of any errors or omissions contained on **Exhibit "A"** (collectively, the "**Lands**");

By these Conveyances, where owned by Grantor as fee mineral interests, Grantees are also being conveyed all of Grantor's right of ingress and egress, at all times, for the purposes of mining, drilling, exploring, operating, and developing the Lands for oil, gas, and other minerals, and storing, handling, transporting, and marketing the same from the Lands, with the right to remove from the Lands any and all property and improvements located on the Lands.

For purposes of this Deed (these "Conveyances"), the Lands, Wells, Leases, Contracts, and all other items of or estates in property, whether real, personal, or mixed, which are identified in the

following numbered sections (1) through (8), are collectively referred to herein as the **"Properties"**:

(1) All of the real property in which Grantor owns any interest situated in the Parishes of Cameron, Jefferson, Iberia, LaFourche, Plaquemines, Terrebonne, St. Mary, and Vermilion, Louisiana (the **"Parishes"**), including, but not limited to, those described on the attached **Exhibit "A"** regardless of any errors or omissions contained on **Exhibit "A"** (collectively, the **"Lands"**);

(2) All of the oil, gas, and/or other wells (if any) in any of the Parishes in which Grantor owns any interest including, but not limited to, any and all wells (if any) situated upon the Leases (as defined herein) and/or the Lands or lands pooled therewith which in the past have produced or presently are producing or capable of producing oil and/or gas (collectively, the **"Wells"**);

(3) All of the oil, gas, mineral, and/or other leases (if any) in, to, and under which Grantor owns any interest in any of the Parishes including, but not limited to, the leases covering the Wells and the leases covering the Lands or lands pooled therewith which in the past have produced or presently are producing or capable of producing oil and/or gas (collectively, the **"Leases"**);

(4) All rights to or ownership of oil, gas, minerals, and other elements produced from or attributable to the Lands, Wells, and Leases including, but not limited to, fee mineral interests and all attributes or elements thereof, royalty interests or rights to royalty, overriding royalties, net profits interests, contract rights, and any and all other interests applicable to oil, gas, minerals, and any other element and the revenue generated from the production and sale thereof;

(5) All oil, gas, minerals, and other elements produced from or attributable to the Lands or lands pooled therewith, Leases, and/or the Wells;

(6) All improvements, rights, privileges, hereditaments, and appurtenances on the Lands, including all of Grantor's right, title, and interest in and to adjacent streets, alleys, rights-of-way, and any adjacent strips or gores of real estate on the Lands;

(7) All personal property, fixtures, and equipment situated either within or upon the Lands, or which presently may be connected to or used in connection with the Wells; and

(8) All contracts, agreements, division orders, unit agreements, and/or other written instruments to which the Leases, Lands, and/or Wells presently may be committed or bound including, but not limited to, those described on the attached **Exhibit "B"** regardless of any errors or omissions contained on **Exhibit "B"** (collectively, the **"Contracts"**).

By these Conveyances, where owned by Grantor as fee mineral interests, Grantees are also being conveyed all of Grantor's right of ingress and egress, at all times, for the purposes of mining, drilling, exploring, operating, and developing the Lands for oil, gas, and other minerals, and storing, handling, transporting, and marketing the same from the Lands, with the right to remove from the Lands any and all property and improvements located on the Lands.

Further, where owned by Grantor as fee mineral interests or royalty interests, overriding royalties, or rights to royalty, these Conveyances are made subject to any rights now existing in

favor of any lessee or its assigns under any valid and subsisting oil, gas, and/or other lease or leases covering the Lands now appearing of record in any of the Parishes. These Conveyances are intended to be conveyances of any and all interests whatsoever owned by Grantor in and to the Properties, inclusive of all lands and real property interests situated in any of the Parishes, whether or not described or referenced on **Exhibit "A"** attached hereto, and specifically including, but not limited to, all rights, titles, and interests heretofore conveyed to Grantor's predecessors in interest. It is understood that Grantees shall have, receive, and enjoy, to the extent of the interests herein conveyed, all bonuses, rents, royalties, revenues, and other benefits which may be derived from the revenues of the sales of oil, gas, minerals, and/or other elements on or after the Effective Date (as defined herein), and payable from or attributable to the Lands, Wells, Leases, Contracts, and/or Properties on or after the Effective Date.

If Grantor's ownership of interests in any of the Properties is limited to a royalty interest or other interest comprising less than all attributes of the entire fee, then these Conveyances are intended to convey to Grantees any, all, and whatsoever such interests comprising any portions of the entire fee as are owned by Grantor, without reservation.

Where owned by Grantor as "working interests" (i.e., leasehold interests under oil, gas, mineral, and/or other leases), the interests herein conveyed are, as applicable, subject to the terms and provisions of the Leases and Contracts (but only to the extent they are valid and subsisting), as well as all other existing burdens and commitments including, but not limited to, as applicable, such conveyed interests' proportionate share of all costs, expenses, and liabilities incurred in connection with the Leases, Wells, and Contracts and for the ultimate plugging and abandonment of the Wells.

These Conveyances are intended to be conveyances of all of Grantor's property of the nature described herein in the Parishes, regardless of size, and is intended to be liberally construed and interpreted to effectuate that intent. It is not a conveyance of small "strips and gores" only.

TO HAVE AND TO HOLD the Properties, together with all and singular the rights and appurtenances thereto in anywise belonging, unto the said Grantees, their respective successors and assigns forever; *provided, however*, and notwithstanding the use of the terms "grant," "convey," and similar terms herein, these Conveyances are made **WITHOUT WARRANTY OF TITLE** or otherwise, of any kind or character, whether arising by statute or by common law, but do assign to Grantees the benefit of all warranties of title inuring to the benefit of Grantor with regard to the interests herein conveyed, together with all rights of prescription whether acquisitive or liberative, together with all rights of subrogation to which Grantor may be entitled, unto Grantees.
