You are hereby notified that the approval of the subject plan has been granted as of September 30, 2025, in accordance with 30 CFR 550.270(b)(1).

This approval includes the activities proposed for Subsea Wells A, AA, and AAA in MC Block 41.

Prior to conducting activities in which you need to obtain approvals and/or permits described in 30 CFR 550.281(a) from the appropriate District Manager or BSEE Regional Supervisor, you must contact BOEM Risk Management Operations Section by email at boemrmos@boem.gov to determine if additional security is required and comply with any demand for this security.

The Endangered Species Act (ESA, 16 U.S.C. §§ 1531 et seq.) is designed to protect threatened and endangered species and applies to activities authorized under the Outer Continental Shelf Lands Act (43 U.S.C. §§ 1331 et seq.). associated Attachments and Appendices that include required mitigations. Conditions of Approval (COA) derived from this consultation ensure ESA compliance.

ESA consultation documents and required mitigations covering oil and gas activities in the Gulf of America, can be found here: <https://www.boem.gov/regions/gulf-america-ocs-region/oil-and-gas-esa-consultations-and-protocols>. You must comply with the protective measures for all activities conducted pursuant to the plan. Activities conducted in association with the subject approval must adhere to these COAs, including all reporting requirements therein.

The following species protective measures found in the link (<https://www.boem.gov/oil-gas-energy/2025-nmfs-biop-protocolspdf>) are applicable for your proposed activities. The numbering below corresponds to the numbering found in the linked document entitled *Endangered Species Act Protocols per the 2025 Biological and Conference Opinion on the Federally Regulated Oil and Gas Program in the Gulf of America*:
