Mr. Taylor Brazzel
GOM Shelf LLC
2107 Research Forest Dr., Suite 250
The Woodlands, Texas 77380

Dear Mr. Brazzel,

Reference is made to the following plan:

Control No.	S-8215
Type	Supplemental Development Operations Coordination Document
Received	January 14, 2026, amended March 4 and June 4, 2026
Lease(s)	OCS-G 14482, Block 346, Eugene Island Area (EI)

You are hereby notified that the approval of the subject plan has been granted as of July 24, 2026, in accordance with 30 CFR 550.270(b)(1).

This approval includes the activities proposed for Wells A001, A002, A003, A004, and A005 and the revision of air emissions for Platform A (Tanzanite) (Complex ID 687).

In accordance with 30 CFR 556.901(d), additional security may be required for your proposed activities. Prior to conducting activities in which you need to obtain approvals and/or permits described in 30 CFR 550.281(a) from the appropriate District Manager or BSEE Regional Supervisor, you must contact BOEM Risk Management Operations Section by email at boemrms@boem.gov to determine if additional security is required and comply with any demand for this security.

In response to the request accompanying your plan for a hydrogen sulfide (H₂S) classification, the area in which the proposed drilling operations are to be conducted is hereby classified, in accordance with 30 CFR 250.490(c), as "H₂S absent."

Our review indicates that the proposed operations have the potential to impact submerged archaeological resources that could be in the area of potential effect (APE), which encompasses all portions of the seafloor where bottom-disturbing activities are to occur. Before conducting any authorized, bottom disturbing activities, the company will follow the guidance provided at <https://www.boem.gov/newsroom/conditional-archaeological-mitigationpdf>, which includes minimum survey recommendations, requisite certification submittals, and post-activity reporting standards needed to ensure compliance with the regulations under 30 CFR 550.194.

Our review indicates that there are pipelines in the vicinity of Platform A and Wells A001, A002, A003, A004, and A005 that may pose a hazard to your proposed operations. Therefore, take precautions in accordance with Notice to Lessees and Operators No. 2022-G01, Section V., prior to performing operations.

You must comply with the applicable protected species project criteria for all activities conducted pursuant to this plan. The current oil and gas protected species criteria are available on BOEM's website at: <https://www.boem.gov/regions/gulf-america-ocs-region/oil-and-gas-protected-species-project-criteria>. Activities conducted in association with this approval must adhere to all applicable project criteria, including any reporting requirements. BOEM and BSEE will continue to implement these project criteria, including any future amendments or clarifications, as deemed appropriate.

For activities approved prior to March 31, 2026, archived versions of the protocols are available at the above BOEM website link.

The following project criteria found in the link (<https://www.boem.gov/regions/gulf-america-ocs-region/protected-species-project-criteria062026>) are applicable for your proposed activities. The numbering below corresponds to the numbering found in the linked document entitled, *Protected Species Project Criteria for the Oil and Gas Program in the Gulf of America*:

- Attachment 2: The Bureaus' Marine Debris Project Criteria
- Attachment 3: The Bureaus' Vessel Strike Avoidance and Injured and/or Dead Aquatic Protected Species Reporting Project Criteria
- Attachment 4: The Bureaus' Vessel Transit within the Rice's Whale Area as identified in the 2020 Biological Opinion's Reasonable and Prudent Alternative (2020 RWA)
- Attachment 5: The Bureaus' In-water Line Precaution Project Criteria
- Attachment 7: The Bureaus' Pile Driving Project Criteria
- Attachment 10: The Bureaus' Sea Turtle Resuscitation Guidelines Project Criteria

These measures are designed to promote environmental protection, consistent environmental policy, compliance with environmental laws, and safety.

If you have any questions or comments concerning this approval, please contact Chiquita Hill at (504) 736-2668.

Sincerely,

for Bernadette Thomas
 Regional Supervisor
 Office of Leasing and Plans
