Ms. Lita Schultz
Anadarko Petroleum Corporation
1201 Lake Robbins Drive
The Woodlands, TX 77380

Dear Ms. Schultz,

Reference is made to the following plan:

Control No.	S-8242
Type	Supplemental Exploration Plan
Received	September 15, 2026, amended September 16, 2026
Lease(s)	OCS-G 21444, Block 875, Keathley Canyon Area (KC) OCS-G 21447, Block 919, Keathley Canyon Area (KC) OCS-G 26771, Block 874, Keathley Canyon Area (KC) OCS-G 32654, Block 918, Keathley Canyon Area (KC)

The Minerals Management Service Keathley Canyon Block 875 Unit Agreement Number is 754318001.

You are hereby notified that the approval of the subject plan has been granted as of November 6, 2026, in accordance with 30 CFR 550.233(b)(1).

This approval includes the proposed activities for Subsea Wells.

In accordance with 30 CFR 556.901(d), additional security may be required for your proposed activities. Prior to conducting activities in which you need to obtain approvals and/or permits described in 30 CFR 550.281(a) from the appropriate District Manager or BSEE Regional Supervisor, you must contact BOEM Risk Management Operations Section by email at boemrmos@boem.gov to determine if additional security is required and comply with any demand for this security.

In response to the request accompanying your plan for a hydrogen sulfide (H_2S) classification, the area in which the proposed drilling operations are to be conducted is hereby classified, in accordance with 30 CFR 250.490(c), as "H_2S absent."

Exercise caution while drilling due to indications of shallow faulting.

The Bureau of Ocean Energy Management (BOEM) and the Bureau of Safety and Environmental Enforcement (BSEE) proposed action under the 2025 National Marine Fisheries Service (NMFS) Biological Opinion includes robust avoidance or minimization measures (i.e., protocols), and those measures will continue to be implemented in the Gulf of America as project criteria under the 2026 Endangered Species Committee Order, as well as pursuant to the Bureaus' authority under the Outer Continental Shelf Lands Act (43 U.S.C. §§ 1331 et seq.).

You must comply with the applicable protected species project criteria for all activities conducted pursuant to this plan. The current oil and gas protected species criteria are available on BOEM's website at: https://www.boem.gov/regions/gulf-america-ocs-region/oil-and-gas-protected-species-project-criteria. Activities conducted in association with this approval must adhere to all applicable project criteria, including any reporting requirements. BOEM and BSEE will continue to implement these project criteria, including any future amendments or clarifications, as deemed appropriate.

For activities approved prior to March 31, 2026, archived versions of the protocols are available at the above BOEM website link.

The following project criteria found in the link (https://www.boem.gov/regions/gulf-america-ocs-region/protected-species-project-criteria062026) are applicable for your proposed activities. The numbering below corresponds to the numbering found in the linked document entitled, *Protected Species Project Criteria for the Oil and Gas Program in the Gulf of America*:

Attachment 2: The Bureaus' Marine Debris Project Criteria
Attachment 3: The Bureaus' Vessel Strike Avoidance and Injured and/or Dead Aquatic Protected Species Reporting Project Criteria
Attachment 4: The Bureaus' Vessel Transit within the Rice's Whale Area as identified in the 2020 Biological Opinion's Reasonable and Prudent Alternative (2020 RWA)
Attachment 5: The Bureaus' In-water Line Precaution Project Criteria
Attachment 6: The Bureaus' Moon Pool Monitoring Project Criteria
Attachment 10: The Bureaus' Sea Turtle Resuscitation Guidelines Project Criteria

These measures are designed to promote environmental protection, consistent environmental policy, compliance with environmental laws, and safety.

If you have any questions or comments concerning this approval, please contact Chiquita Hill at (504) 736-2668 or chiquita.hill@boem.gov.

Sincerely,

MICHELLE PICOU
