

**MC252-1**

**Document Number: 2200-T2-DO-SW-4622**

**Date / Time of Request:** Date: 11-18-10 Time: 13:00

**Person Requesting Work:** Marcus Rose

**Cell Phone Number:** 713-820-3562

**E-Mail Address:** marcus.rose@bp.com

**Description of Work to be performed:**

Perform ROV height survey. ROV shall perform a 100m box survey centered on the Macondo #1 well (i.e. covering 50m to North, South, East and West of the well) looking for objects standing proud from the seabed. Run lines (either North/South or East/West) with 20-ft spacing should be flown by the ROV using sonar to fill in the gaps between lines. Please provide the following for all items approximately 8-ft or higher:

- Position
- Relative height above the seabed
- Still image

In addition to the above survey the relative heights of the three MC252 related wells should be acquired. The location of these wells were previously provided in the field chart but are listed here as well:

No. 1 Well X= 1,202,791.81 Y= 10,431,621.06  
 No. 2 Well X= 1,203,817.67 Y= 10,429,008.63  
 No. 3 Well X= 1,200,943.76 Y= 10,429,220.72
