“Outer Continental Shelf Environmental Assessment Program Final Reports of Principal Investigators” (“OCSEAP Final Reports”) continues the series entitled “Environmental Assessment of the Alaskan Continental Shelf Final Reports of Principal Investigators.”

It is suggested that reports in this volume be cited as follows:

- Colony, R. 1985. A Markov model for nearshore sea ice trajectories. U.S. Dep. Commer., NOAA, OCSEAP Final Rep. 72:1-55.
- Newton, J. L. 1982. Temperature and salinity structure of the wintertime Bering Sea marginal ice zone. U.S. Dep. Commer., NOAA, OCSEAP Final Rep. 72: 57–119.
- Pritchard, R. S., and D. J. Hanzlick. 1987. Interpolation, analysis, and archival of data on sea ice trajectories and ocean currents obtained from satellite-linked instruments. U.S. Dep. Commer., NOAA, OCSEAP Final Rep. 72:121-238.
- Pritchard, R. S., and D. R. Thomas. 1985. Chukchi Sea ice motions, 1981-82. U.S. Dep. Commer., NOAA, OCSEAP Final Rep. 72: 239–255.
- Reimnitz, E., E. W. Kempema, and W. Barnes. 1986. Anchor ice and bottom-freezing in high-latitude marine sedimentary environments: observations from the Alaskan Beaufort Sea. U.S. Dep. Commer., NOAA, OCSEAP Final Rep. 72:257-281.
- Kempema, E. W., E. Reimnitz, and R. E. Hunter. 1986. Flume studies and field observations of the interaction of frazil ice and anchor ice with sediment. U.S. Dep. Commer., NOAA, OCSEAP Final Rep. 72:283-330.
- Reimnitz, E., and E. W. Kempema. 1986. Field observations on slush ice generated during freezeup in Arctic coastal waters. U.S. Dep. Commer., NOAA, OCSEAP Final Rep. 72:331-355.
- Shapiro, L. H. 1987. Mechanical properties of sea ice and sea ice deformation in the nearshore zone. U.S. Dep. Commer., NOAA, OCSEAP Final Rep. 72: 357–584.
- Stringer, W. J. 1988. Remote sensing data acquisition, analysis, and archival. U.S. Dep. Commer., NOAA, OCSEAP Final Rep. 72:585-634.

OCSEAP Final Reports are published by the U.S. Department of Commerce, National Oceanic and Atmospheric Administration, National Ocean Service, Ocean Assessments Division, Alaska Office, Anchorage, and primarily funded by the Minerals Management Service, U.S. Department of the Interior, through interagency agreement.

Requests for receipt of OCSEAP Final Reports
on a continuing basis should be addressed to:

NOAA-OMA-OAD
Alaska Office
Federal Bldg., U.S. Courthouse Room A13
222 West Eighth Ave., #56
Anchorage, AK 99513-7543

The facts, conclusions, and issues appearing in these reports are based on research results of the Outer Continental Shelf Environmental Assessment Program (OCSEAP), which is managed by the National Oceanic and Atmospheric Administration, U.S. Department of Commerce, and funded (wholly or in part) by the Minerals Management Service U.S. Department of the Interior, through an Interagency Agreement.

Mention of a commercial company or product does not constitute endorsement by the National Oceanic and Atmospheric Administration. Use for publicity or advertising purposes of information from this publication concerning proprietary products or the tests of such products is not authorized.

The content of these reports has not been altered from that submitted by the Principal Investigators. In some instances, grammatical, spelling, and punctuation errors have been corrected to improve readability; some figures and tables have been enhanced to improve clarity in reproduction.
