"Outer Continental Shelf Environmental Assessment Program Final Reports of Principal Investigators" ("OCSEAP Final Reports") continues the series entitled "Environmental Assessment of the Alaskan Continental Shelf Final Reports of Principal Investigators."

It is suggested that reports in this volume be cited as follows:

Bronson, M. T. 1988. Trace contaminants in surface sediment of the northern Bering Sea: a statistical review. U.S. Dep. Commer., NOAA, OCSEAP Final Rep. 69:1-99.

Bronson, M. T. 1988. Trace contaminants in the greater St. George Basin a statistical review. U.S. Dep. Commer., NOAA, OCSEAP Final Rep. 69:101-203.

Bronson, M. T. 1989. Mercury in Alaska marine surface sediments: a review of the regional data. U.S. Dep. Commer., NOAA, OCSEAP Final Rep. 69:205-225.

Robertson, D. E., and K. H. Abel. 1979. Natural distribution and environmental background of trace heavy metals in Alaskan shelf and estuarine areas. U.S. Dep. Commer., NOAA, OCSEAP Final Rep. 69:227-419.

OCSEAP Final Reports are published by the U.S. Department of Commerce, National Oceanic and Atmospheric Administration, National Ocean Service, Ocean Assessments Division, Alaska Office, Anchorage, and primarily funded by the Minerals Management Service U.S. Department of the Interior, through interagency agreement.

Requests for receipt of OCSEAP Final Reports on a continuing basis should be addressed to:

NOAA-OMA-OAD
Alaska Office
Federal Bldg., U.S. Courthouse Room A13
222 West Eighth Ave., #56
Anchorage, AK 99513-7543

The facts, conclusions, and issues appearing in these reports are based on research results of the Outer Continental Shelf Environmental Assessment Program (OCSEAP), which is managed by the National Oceanic and Atmospheric Administration, U.S. Department of Commerce, and funded (wholly or in part) by the Minerals Management Service, U.S. Department of the Interior, through an Interagency Agreement.

Mention of a commercial company or product does not constitute endorsement by the National Oceanic and Atmospheric Administration. Use for publicity or advertising purposes of information from this publication concerning proprietary products or the tests of such products is not authorized.

The content of these reports has not been altered from that submitted by the Principal Investigators. In some instances, grammatical, spelling, and punctuation errors have been corrected to improve readability; some figures and tables have been enhanced to improve clarity in reproduction.
